Summary

Frontend Developer with strong experience in **React.js**, **Next.js** and modern TypeScript-based applications.

Specialized in building scalable SaaS admin panels, real-time features and complex UI/API integrations. Proficient in **Redux Toolkit**, **Zustand**, **TanStack Query**, **shadcn/ui**, **Radix UI**, WebSockets and performance optimization.

Passionate about creating clean, accessible and high-performance user experiences.

Technical Skills

Frontend Development

HTML, CSS, JavaScript, TypeScript, React.js, Next.js, Tailwind CSS, SCSS, Bootstrap, Mantine, shadcn/ui, Radix UI, Framer Motion, GSAP

State Management & Data Fetching

Redux Toolkit, Zustand, TanStack Query (React Query)

Backend & APIs

Node.js, Express.js, REST APIs, WebSockets, Socket.io, MongoDB

Tools & Deployment

Git / GitHub, Vercel, Firebase

Work Experience

React.js Developer

Linnk Group – Infopark, Cochin

July 2025 – Present

- Designed & developed Super Admin module from scratch using React, Redux, SCSS, Bootstrap
- Built Organization Admin dashboard using Zustand, TanStack Query and shadcn/ui
- Developed complete ATS module with Radix UI Primitives, TanStack Query and Zustand
- Handled full UI-to-API integration for Linnkus (ATS-CRM) and Linnkme (HRM SaaS platform)
- Contributed to scalable, performant React architecture for multi-tenant SaaS product

Frontend Developer

Gewan Infotech – Infopark, Thrissur

May 2023 – July 2025

- Developed scalable UIs for travel booking platforms using **React.js**, **Next.js** and Mantine
- Integrated REST APIs and **WebSockets / Socket.io** for real-time data communication
- Built **Nirvana Attendance** – HR portal for employee, shift and attendance management
- Implemented video calling feature in N-Travel using Whereby and Socket.io
- Led UI-to-API integration for **Atlas & Nexus** corporate cab booking system
- Maintained and enhanced **Atlas Node Admin**, **Super Admin**, **Hive Node Admin**
- Mentored interns in React best practices, component architecture and API integration

Projects

1. Linnkus & Linnkme – ATS / HRM SaaS Platform

Technologies: React.js, Redux, Zustand, TanStack Query, shadcn/ui, Radix UI, SCSS, Bootstrap

- Designed and built complex admin modules (Super Admin, Organization, ATS) from scratch
- Implemented modern state management and efficient data fetching patterns
- Delivered fully integrated, role-based admin dashboards for multi-tenant SaaS

2. Dealz – Corporate Travel Booking Platform

Technologies: Next.js, REST APIs, WebSockets, Socket.io

- Developed modular booking system for flights, hotels, cabs and insurance
- Designed component architecture focused on reusability and maintainability

3. Nirvana Attendance – HR Management System

Technologies: React.js, Mantine, REST APIs, MongoDB

- Built role-based HR portal with attendance tracking, shift scheduling and reporting
- Implemented permission system and responsive admin interface

4. N-Travel – Real-time Travel Assistance Platform

Technologies: React.js, Socket.io, Whereby (WebRTC)

- Integrated live video calling and real-time chat support for travelers
- Used WebRTC and Socket.io for secure, low-latency communication

Education / Certifications

B.Tech in Computer Science

2016 – 2020

APJ Abdul Kalam Technological University

Full-Stack Development Certification – NACTET

2022 – 2023

Luminar Technolab
